A Touchstone Energy® Cooperative 

Dear Contractor,

I am glad that you are interested in our ductless heat pump rebate program.

In order for your customers to qualify for Benton REA's rebates they must be members of Benton REA and you must be an approved vendor through the Northwest Energy Efficiency Alliance (NEEA). To be approved and listed on NEEA's Installer Finder, at least one representative per company must attend a NW Ductless Heat Pump Project Installer Orientation. This training is available on-demand. To register, go to <https://goingductless.com/partners/training-events/nwdhpp-trainings>.

More details about being a qualified installer are available at <https://goingductless.com/partners/installers/requirements>.

Included with this letter is Benton REA's Ductless Heat Pump Installation Form. The "Installation Information" must be completed and signed by the installer and returned to Benton REA before the member can receive the rebate.

Benton REA's ductless heat pump rebates are as follows:

- Benton REA will pay \$800 for a system replacing baseboard or wall heaters
- Benton REA will pay \$1,000 for a system replacing and electric furnace

We look forward to working with you.

Sincerely,

Eric Miller
