#### Section 1.01 - Qualifications and Obligations

**1.01.1** - The Association shall admit any person as defined in Article V, Section 1 of the Articles who meets the qualifications and accepts the obligations of these Bylaws as a member, provided that no such person regardless of composition may have more than one (1) membership in the Association. Except as otherwise provided in these Bylaws or by the Board of Trustees, a person becomes a member of the Association and consents to being a member upon the following actions being taken:

- (a) Completion of a Membership Application and Record card;
- (b) Provides proof of legal age (18 years or older) in the case of a natural person;
- (c) The Association establishes an active electrical account in the member's name for the purchase of electric service by member at a location or locations within the geographic area served by the Association, pursuant to Section 1.02.1;
- (d) The Board of Trustees approves the membership application; provided that the approval of any application shall, unless the resolution of the Board of Trustees otherwise states, be retroactive to the date when member first receives electric service from the Association.

**1.01.2** - All members will be required and obligated as a condition of membership and as a condition of receiving and continuing to receive electric service to:

- (a) Provide proof of good credit to the satisfaction of the Association or pay a non-interest bearing Service Deposit in the amount to be determined by policies adopted by the Board of Trustees. Said deposit will be held for a minimum period of time to be determined by the Board of Trustees in which the monthly billings have been satisfactorily and timely paid, or until termination of service less any balance owing.
- (b) Pay a Contribution in Aid to Construction or Advance on Construction for all new or altered services in accordance with the Association's current Line Extension Policy as established by the Board of Trustees.
- (c) Provide the Association safe and reliable access to or use of member's property; and, pursuant to reasonable terms and conditions as specified by the Association, and without compensation from the Association, grant or convey to the Association a written easement, right-of-way, or other right or interest for use of member's property as may be determined necessary and requested by the Association, for any of the following purposes: (1) installing, constructing, inspecting, monitoring, operating, repairing, maintaining, removing, relocating, upgrading, or replacing equipment and/or facilities used in providing electric or other cooperative services to member, or to one or more

other members; (2) monitoring, measuring, or maintaining electric or other cooperative services provided to member or to one or more other members; (3) authorizing, permitting, satisfying, or facilitating any obligation incurred, or right granted, by the Association regarding use of the Association's facilities and equipment, including pole attachment agreements involving third parties; or (4) as may be deemed necessary by the Association to otherwise safely, reliably, and efficiently operate the business of the Association. For purposes of this paragraph, the Association's equipment and facilities include, without limitation, cables, poles, guy wires, conduits, transformers, switches, vaults and all other devices, accessories and appurtenances which the Association determines to be necessary and appropriate to operating and maintaining its electric system, whether above or below the ground. Such easements and rights of way shall include, without limitation, a right of access and entry over and across lands owned or controlled by the member, with the right and permission to enter upon said lands for the survey, location, construction, reconstruction, enlargement, maintenance and repair of such equipment and facilities. This shall also include the clearing of obstructions within the easement upon request of the Association based upon reasonable terms and conditions.

- (d) Participate in required Association load management programs. Each member shall participate in any required program and comply with related rates and service rules and regulations that may be established by the Association to enhance load management, utilize electric energy more efficiently, conserve electric energy or to conduct load research.
- (e) Comply with the Governing Documents, and to pay the Association for any damages, costs, or expenses, including attorney's fees and legal expenses, caused by or associated with the member's failure to comply with the Governing Documents. A member who fails to comply with the Governing Documents shall be deemed "not in good standing" and the Association may, after any required notice, thereupon suspend or terminate the provision of electric service or any other cooperative services provided to the member as provided in these Bylaws and in the Governing Documents. Regardless of whether money damages are available or adequate, the Association may bring and maintain a legal action to enjoin a member from violating the Governing Documents; and/or bring and maintain a legal action to order a member to comply with the Governing Documents.

**1.01.3** - Residents of legal age of the same household may jointly become a member and their application for a joint membership may be accepted in accordance with the foregoing provisions of this section, provided that each such resident complies with the provisions of the above subsections 1.01.1 and 1.01.2. The Membership Application and Record card must have signatures of all members of the joint membership in order to be considered a joint membership. The term "member" as used in these Bylaws shall be deemed to include residents of legal age of the same household holding a joint membership and any provisions relating to the rights and liabilities of membership shall apply to each of the holders of a joint membership. Individuals holding a joint membership shall be individually and jointly liable for the membership liabilities contained herein, until notifying the Association in writing of their withdrawal from the joint membership. Such withdrawal from the joint membership shall not affect the rights, privileges

or obligations of the remaining individuals of the joint membership nor relieve any withdrawing individual from liabilities incurred prior to their withdrawal. Without limiting the generality of the foregoing, the effect of the hereinafter-specified actions by or in respect of the holders of a joint membership shall be as follows:

- (a) The presence at a meeting of any individual of a joint membership shall be regarded as the presence of one member and shall constitute a waiver of notice of the meeting by such joint membership;
- (b) The vote of a joint membership shall constitute one member vote;
- (c) A waiver of notice signed by any individual of a joint membership shall constitute a waiver by the entire joint membership;
- (d) Notice to any individual of a joint membership shall constitute notice to such joint membership;
- (e) Only one individual of a joint membership may run for or serve on the Board of Trustees at any time, provided that such individual meets the qualifications for such position.

A membership may be converted to a joint membership upon the written request of the holder thereof and the individual(s) creating the joint membership, and upon compliance with all requirements of this section.

If an individual of a joint membership dies, the membership shall automatically be transferred to the surviving joint member(s).

**1.01.4** - Membership in the Association shall be evidenced by a "Membership Application and Record" card on file, which shall be in such form and shall contain such provisions as shall be determined by the Board of Trustees. Every member thereby has agreed to comply with and be bound by the Governing Documents.

### **Section 1.02 - Purchase of Electric Energy**

**1.02.1** - Except as otherwise provided by Law or the Governing Documents and subject to Section 1.02.1(b), each member shall purchase from the Association all of the electric energy needed by member for use in the Association's service area, pursuant to the following provisions:

- (a) Member reserves the right to self-generate a portion or all of the member's electric needs, with such generation located within the Association's service area, subject to the member paying the Association a cost for standby power including costs for modifying the installed services which are being replaced or may be replaced by the member's own generation capability, and any costs including wholesale power costs attributable to the member which will become stranded as a result of the actions of the member. Production or use of electric energy on such site, regardless of the resource, shall be inter-connected

with Association facilities, and shall be subject to appropriate regulations as shall be fixed by the Board of Trustees.

- (b) Each member shall pay for electric service at rates which shall be fixed by the Board of Trustees, provided, however, that the Board of Trustees may limit the amount of electric energy which the Association shall be required to furnish to any one member.
- (c) Each member shall pay to the Association such minimum amount per month regardless of the amount of electric energy consumed, as shall be fixed by the Board of Trustees.
- (d) Each member shall also pay all amounts billed by the Association to the member when the same shall become due and payable.
- (e) The Association shall not be liable for any losses or damages to persons or property associated with operation of member owned generation.

**1.02.2** - The amounts billed for services in excess of the cost of such services (excluding any taxes paid) are furnished by members as capital and each member shall be credited with the capital so furnished as provided in these Bylaws.

**1.02.3** - All delinquent accounts may be charged interest from the date of delinquency at a rate to be fixed by the Board of Trustees.

**1.02.4** - The Association may agree to purchase, exchange, or sell electric energy with a non-member electric power utility or company.

### **Section 1.03 - Non-liability for Debts of the Association**

**1.03.1** - The private property of the members shall be exempt from execution for debts of the Association and no member shall be individually liable or responsible for any debts or liabilities of the Association.

### **Section 1.04 - Active and Inactive Membership**

**1.04.1** - A membership may be active or inactive. An active member is a member who has an account for retail electric service and is presently receiving retail electric service from the Association. An active member is in "good standing" if the member is in compliance with the Governing Documents. An active member is "not in good standing" if the member is not in compliance with the Governing Documents. An inactive member is a member who is not presently receiving retail electric service from the Association, whether or not the member has an account for electric service and regardless of whether the termination of service is temporary or permanent or voluntary or involuntary. The membership number of the inactive member shall be held and not again assigned except to the inactive member who held such number if they reestablish an active account by applying for and qualifying to receive retail electric service from the Association.

## **Section 1.05 - Transfer of Membership Interest; and Suspension or Termination of Service**

### **1.05.1**

- (a) If an active member is not in good standing as defined in Section 1.04.1, the Association may elect, after any required notice, to suspend or terminate the provision of retail electric service to the member. If the member continues to be not in good standing, the Board of Trustees may, after giving written notice to the member and providing the member an opportunity to comment on the reasons why the member is not in good standing, expel the member from the Association. Nothing in this paragraph is intended to limit the Association's right to pursue remedies at law or in equity in addition to suspension or termination of service, all of which are expressly reserved.
- (b) If an active member is not in good standing, the Association may, in its discretion elect to continue to provide retail electric service to the member; however, the Association may, after written notice to such member, suspend any rights of membership of an active member who is not in good standing and the Association may establish rate schedules and terms of service applicable to active members who are not in good standing that are different from the rates and terms of service applicable to active members in good standing, all as determined by the Board of Trustees.
- (c) If an entity member ceases to exist or withdraws or is expelled from the Association and no longer receives electric service from the Association, the membership of such entity member shall be deemed to be inactive.
- (d) If a member dies and there is no joint membership, the membership shall be deemed inactive, provided, electric service may continue to be provided under the membership of the deceased member at the request of the estate or the legal representative of the deceased member until the estate is wound up or closed, if the estate or the legal representative of the estate provides a suitable guaranty of payment of any charges for continuing electric service.

An inactive member or a member's estate is not released from the debts or liabilities of such member to the Association.

- (e) Notwithstanding any provision in these Bylaws, the Association may suspend or terminate retail electric service to any active member as provided in the Association policies or as determined by the Board of Trustees for good cause.
- (f) A membership interest in the Association shall not be transferable except as provided herein:
  - i. A membership may be transferred by a member to his or her spouse. Upon written request, a membership may be transferred by a member of a joint membership to other members of a joint membership upon the written request of such member and such other joint members in accordance with the provisions of Section 1.01.1, and Section 1.01.2 of this article. Such transfer shall be made and

recorded in the records of the Association representing the membership so transferred.

- ii. When a membership is held jointly by residents of the same household, upon the death or withdrawal of an individual, such membership shall be held solely by the surviving joint member(s) with the same effect as though such membership had been issued to the surviving joint member(s); provided, however, that the estate of the deceased shall not be released from payment of any membership debts or liabilities to the Association.

- (g) Other than as provided for under Section 1.02.4, upon discovery that the Association has been furnishing electric service to any entity other than a member, the Association shall provide a 60 day notice for the entity to become a member, and for the Board of Trustees to approve the membership retroactively to the date on which such entity first began receiving such service, in which event the Association, to the extent practicable, shall correct its membership and all related records accordingly. If the entity fails to become a member within the notice period, the Association may cease furnishing such service.

#### **Section 1.06 - Responsibility for Protecting Association Facilities; Indemnification for Meter Tampering, etc.**

**1.06.1** - Each member shall make available to the Association a suitable site as determined by the Association, where the Association may place its physical facilities for the furnishing and metering of electric service and shall permit the Association's authorized employees, agents and independent contractors to have access for reading, testing, inspection, maintenance, replacement, relocation or repair of such facilities at all reasonable times. As part of the consideration for such service, each member shall be responsible for such facilities so located and shall not interfere with, impair the operation of or cause damage to such facilities, and shall use their best efforts to prevent others from doing so. In addition to the Association's remedies under Section 1.05, in the event such facilities are interfered with, impaired in their operation or damaged by the member, or by any other person when the member's reasonable care and surveillance could have prevented such, the member shall indemnify the Association and any other person against death, injury, loss or damage resulting therefrom, including but not limited to the Association's cost of repairing, replacing or relocating any such facilities and its loss, if any, of revenues resulting from errors in billing computations. In no event shall the responsibility of the Association extend beyond the point at which its service wires are attached to the meter loop provided for measuring electricity used on such premises, or beyond the combination circuit breaker-meter base panel, except that the Association shall, in accordance with its applicable service rules and regulations, indemnify the member for any overcharges for service that may result from a malfunctioning of its metering equipment or billing computation errors, without interest.

**1.06.2** - Interconnection with and operation of the member's facilities with the Association's system shall not cause any reduction in the quality or reliability of service provided to other Association members. This includes, but is not limited to, abnormal voltages, voltage fluctuations and/or harmonic content that causes interference with other member or Association

equipment. Upon notification, the member shall cause such disturbances created by or through their facilities to be remedied at such member's expense thus restoring the quality of service provided by the Association to its original state prior to the member's interconnection with the Association facilities. Failure on the part of the member to remedy such quality of service disturbances within ninety (90) days from initial notification may result in the member being disconnected from the Association's facilities.

## **ARTICLE II**

### **MEETING OF MEMBERS**

#### **Section 2.01 - Annual Meeting**

**2.01.1** - The annual meeting of the members shall be held on such date, during the first nine months of each calendar year, at such place within a county served by the Association, as selected by the Board of Trustees and which shall be designated in the notice of the meeting, for the purpose of electing Trustees, passing upon reports for the previous fiscal year and transacting such other business as may come before the meeting. It shall be the responsibility of the Trustees to make adequate plans and preparations for the annual meeting. Failure to hold the annual meeting at the designated time shall not work a forfeiture or dissolution of the Association.

#### **Section 2.02 Special Meetings**

**2.02.1** - Special meetings of the members may be called by resolution of the Board of Trustees, and it shall thereupon be the duty of the Secretary to cause notice of such meeting to be given as hereinafter provided. Special meetings of the members may be held at any place within a county served by the Association, as designated by the Trustees, and shall be specified in the notice of the special meeting.

#### **Section 2.03 - Notice of Members Meeting**

**2.03.1** - Written or printed notice stating the place, day and hour of the member meeting and, in case of a special meeting or an annual meeting of the members at which business requiring special notice is to be transacted, the purpose or purposes for which the meeting is called, shall be delivered not less than ten consecutive days nor more than fifty consecutive days before the date of the meeting, either personally or by mail, by or at the direction of the Secretary, or upon a default in duty by the Secretary, by the persons calling the meeting, to each member. If mailed, such notice shall be deemed to be delivered when deposited in the United States mail, addressed to the member at their address as it appears on the records of the Association, with postage thereon prepaid. The failure of any member to receive notice of an annual meeting or a special meeting of the members shall not invalidate any action which may be taken by the members at any such meeting. The attendance of any member at any meeting shall constitute a waiver of notice of such meeting, except in case a member shall attend a meeting for the express purpose of objecting to the transaction of any business because the meeting shall not have been lawfully called or convened.

## **Section 2.04 - Quorum**

**2.04.1** - Except as otherwise required by law, five or more members present in person shall constitute a quorum for the transaction of business at all meetings of the members. If less than a quorum is present at any meeting, a majority of those present may adjourn the meeting without further notice.

## **Section 2.05 - Voting**

**2.05.1** - Each member, including each joint membership, shall be entitled to one (1) vote and not more upon each matter submitted to a vote at a meeting of the members.

**2.05.2** - Voting by members, other than members who are natural persons, shall be allowed upon the presentation to the Association prior to or upon registration at each member meeting, of satisfactory evidence entitling the person presenting this evidence to vote as a representative of the member.

**2.05.3** - Members may vote by mail-in ballot only on proposed changes to the Articles, sale of Association assets or election of Trustees.

**2.05.4** - All solicitation for votes by mail-in ballot regarding proposed changes to the Articles or the sale of Association assets shall: (i) include the minimum number of responses needed to take action by mail-in ballot; (ii) state the percentage of approvals necessary to approve each matter; and (iii) specify the time by which a mail-in ballot must be received by the Association in order to be valid and counted. All solicitations for votes to elect a Trustee shall: (i) state the names of the candidates and the district in which they are running; (ii) state the date and location of the annual meeting at which the results will be announced; (iii) state the manner in which a member may vote (one member/one vote, preferential voting); and (iv) specify the time by which a mail-in ballot must be received by the Association in order to be valid and counted.

**2.05.5** - A mail-in ballot cannot be revoked or amended and to be valid must be received by the Association or its designee prior to the deadline as established in the mail-in ballot information.

**2.05.6** - Prior to voting upon any action which would give rise to dissenters' rights under Chapter 23B.13 of the Revised Code of Washington, the Board of Trustees must review, approve and recommend such action to the members. Merger or consolidation of the Association, whether or not the Association is the surviving entity, or dissolution or sale of the Association are examples of action which give rise to dissenters' rights.

## **Section 2.06 - Proxies**

**2.06.1** - At all meetings of members, a member may vote by proxy executed in writing by the member, limited, however, to those matters of business only as specifically stated in the notice of meeting for which the proxy is given, and excluding the election of Trustees. Such proxy shall be filed with the Secretary before or at the time of the meeting. No proxy shall be voted at any meeting of the members unless it shall designate the particular meeting at which it is to be voted,

and no proxy shall be voted at any meeting other than the one so designated. No person shall vote as proxy for more than three (3) members at any meeting of the members, and no person shall vote as proxy who is not a qualified voter of the Association. No proxy shall be valid after sixty (60) days from the date of its execution. The presence of a member at a meeting of the members, or a qualified mail-in ballot, shall revoke a proxy theretofore executed by them and such member shall be entitled to vote at such meeting in the same manner and with the same effect as if they had not executed a proxy.

### **Section 2.07 – Order of Business**

**2.07.1** - The order of business at the annual meeting of the members, and so far as possible at all other meetings of the members, shall be essentially as follows:

- (a) Acceptance of meeting registration book to determine quorum.
- (b) Reading of the notice of the meeting, or the waiver or waivers of notice of the meeting, as the case may be.
- (c) Remind members that the minutes posted in the meeting hall have been approved by the Board of Trustees, but that errors in minutes can be corrected at any time, even after approval or reading of unapproved minutes of previous meetings of the members and the taking of necessary action thereon.
- (d) Presentation and consideration of, and acting upon, reports of the officers, Trustees and committees.
- (e) Election of Trustees.
- (f) Unfinished business.
- (g) New business.
- (h) Adjournments.

The President or presiding officer may amend the order of business at the annual meeting including the presentation of door prizes.

## **ARTICLE III**

### **BOARD OF TRUSTEES**

#### **Section 3.01 - Powers and Responsibilities of Trustees**

**3.01.1** - The business and affairs of the Association shall be managed by a board of eight (8) Trustees elected from the membership which shall exercise all of the powers of the Association except such as are by Law or by the Governing Documents conferred upon or reserved to the members. The Board of Trustees shall take any and all actions necessary to ensure responsible management and operation of the Association.

**3.01.2** - Economic Development. The Board of Trustees is empowered to promote economic development of the general areas in or near to which the Association serves.

**3.01.3** - Rates and Terms of Service.

- (a) The Board of Trustees shall fix the price at which electric energy shall be sold to the membership of the Association, and shall have authority to raise or lower the price of electric energy at their discretion. Based upon different costs of providing electric energy to different groups of members, the Board of Trustees may adopt rates that charge each group a different rate or price for providing the electric energy.
- (b) The Board of Trustees shall set the terms, conditions, time, and the manner each member shall pay the Association for:
  - i. Electric energy and other services provided to the member or provided for a member; and
  - ii. Dues, assessments, fees, deposits, contributions, or other amounts required to be paid by the Articles, these Bylaws or any policies, rules or regulations adopted by the Board of Trustees.
- (c) The Board of Trustees shall establish and periodically review policies not inconsistent with the Articles or these Bylaws regarding the provision of service to members.

#### **Section 3.02 - Qualifications and Tenure; Trustee Districts**

**3.02.1** - Trustees shall be elected by ballot from the members who are natural persons to serve for terms of three (3) years or until their successors shall have been elected. Trustee terms shall be staggered so that each Trustee position is up for election every three (3) years. .

**3.02.2** - General Qualifications of Trustees. Trustees and Trustee candidates shall have the following general qualifications, unless excused by the Board of Trustees for good cause:

- (a) Have the capacity to enter legally binding contracts;

- (b) Be an individual who receives electrical service from the Association at his or her primary residential abode; which abode must be located in the district represented by such Trustee or Trustee candidate;
- (c) Not be a convicted felon;
- (d) Not be an incumbent elected public official or a candidate for an elective public office in connection with which a salary is paid;
- (e) Not been employed by the Association or a subsidiary of the Association within the last three (3) years, or is not closer in consanguinity than the third degree or less to an incumbent Trustee, or to an employee of the Association; and
- (f) Fulfill any other reasonable qualifications as determined by the Board of Trustees.

Background checks will be performed on all Board of Trustee candidates to assure that they meet the general qualifications to be a Trustee.

**3.02.3** - Failure of a Trustee to comply with the requirements of Section 3.02.2 may subject such Trustee to removal pursuant to Section 3.06.1.

**3.02.4** - The territories served by the Association shall be divided into eight (8) districts for the purpose of electing Trustees, and to give equitable representation on the Board of Trustees to the members in the geographical areas served by the Association insofar as practical as determined by the Board of Trustees. The boundaries of each district shall be fixed by the Board of Trustees by resolution. The composition of the districts shall be reviewed by the Board of Trustees as and when they determine necessary, and if it should be found that material inequalities in representation have developed which can, in the determination of the Board of Trustees, be corrected by re-delineation of the districts, the Board of Trustees shall reconstitute the districts.

**3.02.5** - Nothing in this Section 3.02 contained shall, or shall be construed to, affect in any manner whatsoever the validity of any action taken at any meeting of the Board of Trustees.

**3.02.6** - An individual who has served on the Board of Trustees within the last three (3) years shall not be eligible for employment by the Association.

### **Section 3.03 - Trustee Candidates and Election**

**3.03.1** - Except as otherwise provided in Section 3.06.1, at least 120 days prior to the date of the next annual meeting of the members, a notice and solicitation for Trustee candidates shall be issued for the upcoming Trustee election for the districts for which a Trustee is to be elected. Members seeking to run for a Trustee position shall notify the Board of Trustees in the manner specified in the notice and solicitation. The Board of Trustees shall determine that all candidates for Trustee positions fulfill the qualifications specified in these Bylaws for such position. The Secretary shall prepare and post at the principal office of the Association at least 60 days prior to the date of the next annual meeting of the members, a list of candidates for Trustees in each district, and at least 30 days prior to the date of the next annual meeting of the members, ensure

that mail-in ballots and instructions on how to vote are distributed to all members residing in the district in which a Trustee is to be elected.

**3.03.2** - Notwithstanding anything in this section to the contrary, failure to comply with any of the provisions of these Bylaws shall not affect in any manner whatsoever the validity of any election of Trustees. Each member shall be entitled to cast one ballot to elect the Trustee that will represent the district in which the member resides. The election of Trustees shall be by ballot and each member may vote by (i) mailing the ballot to the Association in accordance with the voting instructions; (ii) delivering the ballot to the Association at its principal offices; or (iii) delivering the ballot to the Association at the commencement of the annual membership meeting. If there are two or fewer candidates for the Trustee position for a district, each member residing in such district shall be entitled to vote for one Trustee candidate for that district. If there are more than two candidates for the Trustee position for a district, then preferential voting shall be used, and each member who is a resident of such district shall be entitled to vote on their ballot for each of the candidates running for such Trustee position, in accordance with the preferential voting system as set out in section 3.03.2(a). The candidate of each district receiving an absolute majority (more than one-half of the total votes cast in their district) shall be elected for the term specified by the Bylaws of the Association. The results of the Trustee elections shall be announced at the annual membership meeting.

- (a) Preferential Voting. The member will indicate on the ballot, in numerical descending order, the preference for each candidate (1 being most preferred). No two candidates may be assigned the same numerical preference. To determine which candidate has an absolute majority, at the close of voting all of the first preference votes (votes marked with number 1) for each candidate will be counted. If a candidate gets more than one-half the total first preference votes, that candidate is elected. If none of the candidates has an absolute majority, the candidate with the smallest number of first preference votes is excluded. That candidate's ballots are then transferred to the remaining candidates according to the second preferences marked on them. If there is still no candidate with an absolute majority, then the candidate who now has the fewest votes is excluded. That candidate's votes are transferred to the remaining candidates according to the preferences marked on them. This process continues until one candidate has an absolute majority.

**3.03.3** - Failure of an election for a given year, or failure to hold the annual meeting at the designated time, or failure to hold the annual meeting, shall allow the incumbents whose Trusteeship would have been voted on to hold over only until their successor is elected.

**3.03.4** - Any action that is required pursuant to this Article to be taken on a date certain that is a non-business day for the Association will be in compliance with this Article if taken on the next business day immediately following such non-business day.

### **Section 3.04 - Board of Trustee Conflict of Interest and Code of Ethics**

**3.04.1 - Standard of Care.** A Trustee shall discharge the Trustee's duties, including duties as a Board of Trustee Committee member:

- (a) In good faith;
- (b) In a manner the Trustee reasonably believes to be in the best interests of the Association and its members;
- (c) In a manner consistent with the care that an individual in a like position would reasonably believe appropriate under similar circumstances when performing the Trustee's decision-making function or the Trustee's oversight function;
- (d) In a manner which avoids potential conflict of interest or the appearance of conflict of interest; and
- (e) In a manner in which the Trustee discloses or causes to be disclosed to other Trustees or Board of Trustees Committee members information not known by them, but known by the Trustee to be material to discharging their decision-making or oversight functions, except that disclosure is not required to the extent that the Trustee reasonably believes that disclosure would violate a duty imposed under law, a legally enforceable obligation of confidentiality, or a professional ethics rule.

**3.04.2 - Trustee Reliance on Others.** Unless a Trustee has knowledge making reliance unwarranted, then in discharging the Trustee's duties, including duties as a Board of Trustees Committee member, the Trustee may rely on the performance by any of the individuals listed in (a) or (b) below or a committee listed in (c) below to whom the Board has formally or informally delegated the authority or duty to perform one or more of the Board's delegable functions; and upon information, opinions, reports, or statements, including financial statements and other financial data, prepared or presented by any of the following:

- (a) One or more Association officers or employees whom the Trustee reasonably believes to be reliable and competent in the functions performed or the information, opinions, reports, or statements provided;
- (b) Legal counsel, public accountants, or other individuals retained by the Association regarding matters involving skills or expertise the Trustee reasonably believes are matters within the individual's professional or expert competence and as to which the individual merits confidence; and

- i. The Trustee, or a close relative of the Trustee, is employed by, has ownership in, or is an officer of a substantial competing enterprise, or is financially interested in a business selling electric energy or supplies to the Association, or a business primarily engaged in selling electrical appliances, fixtures, or supplies to the members of the Association.
  - ii. The Trustee solicits or receives any gift, or favor or other improper payment or consideration from a member, supplier, government official, or from any other person in exchange for assistance or influence concerning any transaction affecting the Association.
- (c) Approval of Conflict of Interest Transaction. Regardless of the presence or vote of a Trustee with an interest in a Conflict of Interest Transaction, a Conflict of Interest Transaction may be approved, and any Board of Trustee Quorum or Member Quorum satisfied, if the Conflict of Interest Transaction's material facts, and the Trustee's interest, are:
- i. Disclosed or known to the Board of Trustees or Board of Trustee's Committee, and a majority of the Board of Trustees, or Board of Trustee's Committee members with no interest in the Conflict of Interest Transaction vote to approve the Conflict of Interest Transaction; or
  - ii. Disclosed or known to the members, and a majority of votes cast by members, not voting under the control of a Trustee or entity interested in the Conflict of Interest Transaction, approves the Conflict of Interest Transaction.

Members to be considered for appointment must meet all qualification requirements for Trustees (Section 3.02) and be willing to comply with Section 3.04. The member appointed to fill a vacancy shall serve for either the unexpired term of their predecessor in office or in the case of a new Trustee district until such position is up for election as determined by the Board of Trustees.

If a Trustee is paid such fixed sum(s) by the Association pursuant to any such resolution or general policy, and in addition is paid per diem payments from state, regional and/or national associations for the same day(s) or portion thereof spent on the business of such state, regional and/or national association, in such event the Board of Trustees may, by resolution or general policy, authorize the Trustee to retain the greater of such payments so long as the lesser of such payments is surrendered to the Association. If authorized by the Board of Trustees, Trustees may also be reimbursed for expenses actually and necessarily incurred in carrying out such Association business or granted a reasonable per diem allowance by the Board of Trustees in lieu of a detailed accounting for some of these expenses. No Trustee shall receive compensation for serving in any other capacity, nor shall any relative of a Trustee closer in consanguinity than the third step or spouse thereof, receive compensation for serving the Association unless the payment and amount of compensation shall be specifically authorized by the Board of Trustees or the service by the Trustee or such relative of a Trustee shall have been certified by the Board of Trustees as an emergency measure.

## **ARTICLE VII**

### **NON-PROFIT OPERATION**

#### **Section 7.01 - Interest or Dividends on Capital Prohibited**

**7.01.1** - The Association shall at all times be operated on a cooperative non-profit basis for the mutual benefit of its members. No interest or dividends shall be paid or payable by the Association on any capital furnished by its members.

#### **Section 7.02 - Patronage Capital in Connection with Furnishing Electric Energy**

**7.02.1** - In the furnishing of electric energy to members, the Association's operations shall be so conducted that all members will, through their patronage, furnish capital for the Association. In order to induce patronage and to assure that the Association will operate on a non-profit basis, the Association is obligated to account, on a patronage basis, to all its members for all amounts received and receivable in excess of operating costs and expenses properly chargeable against the furnishing of electric energy. All such amounts received from members by the Association in excess of operating costs and expenses are received with the understanding that they are furnished by the members as Patronage Capital.

The Association is obligated to allocate by credits to a Patronage Capital account for each member all such amounts in excess of operating costs and expenses. The Patronage Capital records of the Association shall be set up and kept in such a manner that at the end of each fiscal year the amount of Patronage Capital, if any, so furnished by each member is clearly reflected and credited in an appropriate record to the Patronage Capital account of each member, and the Association shall within a reasonable time after the close of the fiscal year notify each member through individual notices the amount of Patronage Capital so credited to their Patronage Capital account. All such amounts credited to the Patronage Capital account of any member shall have the same status as though they had been paid to the member in cash in pursuance of a legal obligation to do so and the member had then furnished the Association corresponding amounts for capital.

**7.02.2** - All other amounts received by the Association from its services or operations in excess of costs and expenses insofar as permitted by law, shall be:

- (a) Used to offset any losses incurred during the current or any prior fiscal year; and
- (b) To the extent not needed for such purpose, allocated to its members on a patronage basis and any amount so allocated shall be included as a part of the Patronage Capital credited to the capital accounts of members, as herein provided.

**7.02.3** - The Board of Trustees shall determine the basis of allocation, and order of retirement, if any, for all amounts furnished as Patronage Capital.

**7.02.4** - Unretired Patronage Capital credited to the account of each member on the records of the Association shall be assignable in total only, with no partial assignments, pursuant to written instruction from the assignor and in compliance with any requirements reasonably determined by the Board of Trustees. Any such assignment will be reflected on the records of the Association and the assignee shall, to the extent possible, be treated in the same manner as the assignor would have been treated regarding general or special retirement of Patronage Capital.

**7.02.5** - The Association shall allocate Patronage Capital as provided in this Bylaw. The Association shall allocate Patronage Capital to each member's Patronage Capital account using each member's name as shown in the Association's records based on the member's patronage.

### **Section 7.03 - Retiring and Refunding Patronage Capital**

**7.03.1** - The Association may retire and pay Patronage Capital allocated to members as provided in this Bylaw and any policies adopted by the Board of Trustees. If the Association retires and pays Patronage Capital, then the Association shall retire and pay Patronage Capital to members in each member's name as shown in the Association's records.

**7.03.2** - At any time before the Association's dissolution, liquidation, or other cessation of existence, the Association may generally retire and pay some or all Patronage Capital allocated to members.

**7.03.3** - The Association may specially retire and pay some or all Patronage Capital allocated on a discounted basis to a deceased member who was a natural person as provided by any policies adopted by the Board of Trustees.

**7.03.4** - The Association may not specially retire and pay Patronage Capital allocated to a member that is not a natural person before the time the Association anticipates normally retiring and paying such Patronage Capital to such member or by reason of such member's corporate dissolution, liquidation, or other cessation of existence or after such member's corporate reorganization, transfer, merger, or consolidation.

**7.03.5** - Regardless of a statute of limitation or other time limitation, before retiring and paying Patronage Capital allocated to a member, the Association may recoup an amount owed to the Association by the member, including any compounded interest and late payment fee, by reducing the amount to be paid to the member by the amount owed to the Association.

**7.03.6** - The Association may generally or specially retire and pay Patronage Capital only if the Board of Trustees determines that the retirement and payment will not adversely impact the Association's financial condition. Consistent with this Bylaw, the retirement and payment of Patronage Capital are in the sole discretion of the Board of Trustees and are not affected by previous retirements and payments. The manner, method, and timing of retiring and paying Patronage Capital may be determined only by the Board of Trustees.

**7.03.7** - The Association may regularly impose a reasonable dormancy or service charge for each year a member fails to claim Patronage Capital retired and paid to the member. In the event the Association is unable to make payment of Patronage Capital or patronage refunds to any

member because of inability to locate the member, the incapacity of the member to receive the same, or any other cause beyond the control of the Association, after the lapse of a period from the date the right to receive same accrued of less than the statute of limitations within which payment of said Patronage Capital might be demanded, or the period of years named in the Unclaimed Property Act of Washington, such Patronage Capital or patronage refund shall be transferred into an Educational Fund of the Association.

**7.03.8** - In the event of dissolution or liquidation of the Association, after all outstanding indebtedness of the Association shall have been paid, outstanding Patronage Capital shall be retired without priority on a pro-rata basis before any payments are made on account of property rights of members; PROVIDED, insofar as gains may at that time be realized from the sale of any appreciated asset, such gains shall be distributed to all persons who were members during the period the asset was owned by the Association on a pro rata basis, insofar as is practicable, as determined by the Board of Trustees, before any payments are made on account of property rights of members.

## **ARTICLE VIII**

### **MISCELLANEOUS**

**8.01** - Waiver of Notice. Any member of the Association or member of the Board of Trustees may waive in writing any notice of a meeting required to be given by these Bylaws which applies to them.

**8.02** - Governing Law. These Bylaws must be governed by, and interpreted under, the laws of the state of Washington.

**8.03** - Partial Invalidity. When reasonably possible, every Bylaw article, section, subsection, paragraph, sentence, clause, or provision (collectively, "Bylaw Provision") must be interpreted in a manner that renders such Bylaw Provision valid. The invalidation of a Bylaw Provision by a court having jurisdiction and authority to do so, and which invalidation does not alter the fundamental rights, duties, and relationship between the Association and members, does not invalidate the remaining Bylaw Provisions.

**8.04** - Cumulative Remedies. The rights and remedies provided in these Bylaws are cumulative. The Association or a member asserting a right or remedy provided in these Bylaws does not preclude the Association or member from asserting other rights or remedies provided in these Bylaws.

**8.05** - Successors and Assigns. Except as otherwise provided in these Bylaws: (1) the duties, obligations, and liabilities imposed upon, and the rights granted to, the Association by these Bylaws are binding upon, and inure to the benefit of, the Association's successors and assigns; and (2) the duties, obligations, and liabilities imposed upon a member by these Bylaws are binding upon the member's successors and assigns. The binding nature of the duties, obligations, and liabilities imposed by these Bylaws upon the successors and assigns of the Association or a member does not relieve the Association or member of the duties, obligations, and liabilities imposed by these Bylaws.

**8.06 - Waiver.** The failure of the Association or a member to assert a right or remedy provided in these Bylaws does not waive the right or remedy provided in these Bylaws.

**8.07 - Electronic Documents.** If a member or Trustee owns, controls, or has reasonable access to the applicable or necessary hardware and software, then, as determined by the Board, and as allowed by Law:

- (a) The member or Trustee consents and agrees to: (1) use, accept, send, and receive an electronic signature, contract, record, notice, communication, and other document regarding a transaction, business, or activity with, for, or involving the Association (“Electronic Document”); (2) electronically conduct an action, transaction, business, or activity with, for, or involving the Association; and (3) electronically give or confirm this consent and agreement; and
- (b) An Electronic Document sent to or received from the member or Trustee satisfies a requirement imposed by the Governing Documents that the underlying signature, contract, record, notice, communication, or other document be in writing;
- (c) Electronically sending an Electronic Document to, or receiving an Electronic Document from, the member or Trustee satisfies a requirement imposed by the Governing Documents that the underlying signature, contract, record, notice, communication, or other document be sent or received personally or by mail; and
- (d) An Electronic Document electronically sent to a member or Trustee or former member at the member’s or Trustee’s last known electronic address is considered sent and received on the date sent by the Association. An Electronic Document electronically received from a member or Trustee is considered sent and received on the date received by the Association.

**8.08 - Savings Clause.** Nothing in the Bylaws is intended to limit any powers or authorities available to this Association under applicable law to engage in any lawful business or other activities, all of which powers and authorities are hereby expressly reserved.

## **ARTICLE IX**

### **FISCAL YEAR**

The fiscal year of the Association shall begin on the first day of January of each year and end on the thirty-first day of December of the same year.

## **ARTICLE X**

### **MEMBERSHIP IN OTHER ORGANIZATIONS**

The Board of Trustees shall have full power and authority on behalf of the Association to purchase stock or become a member of any non-profit corporation or cooperative organized for the purpose of engaging in rural electrification; generating, transmitting or distributing electric energy; servicing, promoting or assisting rural electrification; or financing its member programs, projects or undertakings.

## **ARTICLE XI**

### **PARLIAMENTARY AUTHORITY**

The rules contained in the eleventh edition of 'Robert's Rules of Order Newly Revised' shall govern all general membership meetings of the Benton Rural Electric Association, and shall govern in cases to which they are applicable and in which they are not inconsistent with the Articles, these Bylaws, any special rules of order that the Association membership may adopt or any statutes applicable to the Association. The Board of Trustees may adopt by resolution such rules and procedures it deems appropriate to govern the conduct of its regular and special meetings, so long as such adopted rules and procedures are not inconsistent with the Articles, these Bylaws, or any statutes applicable to the Association.

## **ARTICLE XII**

### **AMENDMENTS**

These Bylaws may be altered or amended by affirmative vote of 2/3 of the Board of Trustees present and voting at any regular or special meeting, at which a quorum is present, provided the notice of such meeting shall have contained a copy of the proposed alteration or amendment.

## **ARTICLE XIII**

### **INDEMNIFICATION**

**13.01** - Each person who was or is made a party or is threatened to be made a party to or is involved (including, without limitation, as a witness) in any actual or threatened action, suit or proceeding, whether civil, criminal, administrative or investigative, by reason of the fact that he or she is or was a Trustee, or officer of the Association or, being or having been such a Trustee, or officer, he or she is or was serving at the request of the Association as a Trustee, officer or agent of another Association or of a partnership, joint venture, trust or other enterprise, including service with respect to employee benefit plans, whether the basis of such proceeding is alleged action in an official capacity as a Trustee, officer or agent or in any other capacity while serving as a Trustee, officer or agent or in any other capacity, shall be indemnified and held harmless by the Association to the full extent permitted by applicable law as then in effect, against all

expenses, liability and loss (including, without limitation, attorney's fees, judgments, fines, ERISA excise taxes or penalties and amounts to be paid in settlement) actually or reasonably incurred or suffered by such person in connection therewith. Such indemnification shall continue as to a person who has ceased to be a Trustee, officer or agent and shall inure to the benefit of his or her heirs, executors and administrators. No indemnification shall be provided under this Article to any such person if the Association is prohibited by the non-exclusive provisions of the Washington Business Corporation Act or other applicable law as then in effect from paying such indemnification, or for acts or omissions that involve intentional misconduct or knowing violation of law, or for any transaction from which the trustee or officer will personally receive a benefit to which the trustee or officer is not legally entitled. The right to indemnification conferred in this Section shall be a contract right and shall include the right to be paid by the Association the expenses incurred in defending any such proceeding in advance of its final disposition; provided, however, that the payment of such expenses in advance of the final disposition of a proceeding shall be made to or on behalf of a Trustee or officer only upon delivery to the Association of the undertaking, by or on behalf of such Trustee or officer, to repay all amounts so advanced if it shall ultimately be determined that such Trustee or officer is not entitled to be indemnified under this Article or otherwise, which undertaking may be unsecured and may be accepted without reference to financial ability to make repayment.

**13.02** - The right to indemnification and the payment of expenses incurred in defending a proceeding in advance of its final disposition conferred in this Article shall not be exclusive of any other right which any person may have or hereafter acquire under any statute, provision of the Articles, Bylaws, agreement, vote of the membership or disinterested members of the Board of Trustees.

**13.03** - The Association may maintain insurance, at its expense, to protect itself and any Trustee, officer or agent of the Association or another corporation, partnership, joint venture, trust or other enterprise against any expense, liability or loss, whether or not the Association would have the power to indemnify such person against such expense, liability or loss under the Washington Business Corporation Act. The Association may enter into contracts with any Trustee or officer of the Association in furtherance of the provisions of this Article and may create a trust fund, grant a security interest or use other means (including, without limitation, a letter of credit) to ensure the payment of such amounts as may be necessary to effect indemnification as provided in this Article.

**13.04** - The Association shall indemnify employees of the Association, and may by action of its Board of Trustees, pay expenses in advance of the final disposition of a proceeding to employees and agents of the Association, both with the same scope and to the same effect as the provisions of this Article with respect to the indemnification and advancement of expenses to Trustees and officers of the Association or pursuant to rights granted pursuant to, or provided by, the Washington Business Corporation Act.
