402 7TH Street • P.O. BOX 1150 • PROSSER, WASHINGTON 99350 • 509/786-2913 • Fax: 509/786-0291

Dear Member,

Thank you for your interest in Benton REA's window rebate program. Your energy efficiency efforts will help reduce your electric bills and will also help reduce regional energy use. Here are a couple of things to know before you install new windows: (1) To qualify for the rebate, your primary heating source needs to be electric (2) Make sure your window contractor is aware of, and participating in, Benton REA's window program.

The program is designed to replace windows and sliding glass doors that are single pane, single pane with storm windows or units that are double pane with metal frames. Replacement windows must have a u-value that is .30 or lower. Sliding glass doors must have a u-value of .35 or lower.

Benton REA's rebate is \$6 per square foot of glazing (glass) area. For a 4' x 5' window (20 square feet), the rebate is \$120. An \$8 per square foot rebate is available if you wish to install windows that have a u-value of .22 or lower (those are typically triple-pane). Benton REA does not offer rebates for new windows that are larger than the ones they replace. You may find that federal tax credits will also apply by visiting https://www.energystar.gov/about/federal_tax_credits/non_business_energy_property_tax_credits.

Please notify me before the job begins and make sure your contractor files paperwork with Benton REA detailing the installation plan. After the work is complete, your contractor is required to file with Benton REA a copy of your invoice that specifies the total square feet of windows and sliding glass doors that were installed. I have also included the Window Rebate Confirmation of Completion form you must fill out that confirms the contractor completed your project. You may want the rebate paid directly to the installing contractor to lower the total amount you owe the contractor. Rebates allocated to the contractor must show as a line item credit against the project cost on invoices. As a member and/or homeowner, you get to decide who receives these rebates. Please indicate on the Window Rebate Confirmation of Completion form who will receive the rebate. When these steps have been completed, Benton REA will issue your rebate.

If you are interested in doing the window replacements yourself, please contact me to find out the steps for doing so.

If you have more questions about the program, please email or call me and I will provide you with additional info.

Sincerely,

Eric Miller
